Hi! my name is Aakash Tirole, a Frontend developer from a beautiful city Indore. I have more than 3.8 year of experience in IT Industry as a Frontend developer. As of now I have worked on more than 40+ projects including E-commerce, Social, Landing Page and etc. from scratch to end. I have also worked on Ionic apps and developed (UI Part) 20+ Apps for both android and IOS. My technical tools are - React, HTML, CSS, Bootstrap, React, AEM, JavaScript, jQuery, and Ionic as well.

I would like to work together with software or web design firms, communicating application design principles and strategies for ongoing development. My aim is to create better interfaces and experiences for the user, making the web, applications and technology easier for the user. Simplifying communication barriers by bridging the gap between end-users, designers and developers.
